

## Proposed Budget for Fiscal Year 2021-22

This year's budget was built using a zero-based approach. Here are the details:

- Transactions for expenditures and expenses during fiscal year 2020-21 were exported to Excel.
- This yielded the Actual Expenses (Table A) to serve as the basis for a "zero-based budget."
- The Actual Expenses were copied into a new table and dates relabled.
- Jan-Jun 2020 were moved to the right and relabeled as 2021.
- Bills were double-checked and adjusted to accommodate changes. Expenses not billed in the past year but due this year were added. Allowances were made for expected mailings and maintenance.
- Seed funding for the cookbook was added. That should be sufficient to self-publish 25 sets of two volumes. Income from the sale of those should cover the cost of printing more.
- This yielded the Proposed Budget Details (Table B) showing all proposed expenditures.
- The Budget Details table was copied into a new table
- Rows with sub-expense categories and expenditures were hidden. The table was reformatted for (e.g., only whole dollar amounts are shown). This is the Proposed Budget (Table C).

The result is a very austere budget consistent with our strategy of minimizing expenses. The bottom line is consistent with the presentation at the 2019 Annual Meeting.
